

Proposed ESY Program Summer 2024

What is Extended School Year?

Extended School Year (ESY) services are special education and related services provided to students with disabilities beyond the regular 180-day school year. ESY is determined on an individual basis and includes the services necessary for the provision of FAPE for each individual student. The Individuals with Disabilities Education Act (IDEA), the federal special education law, says that school districts, intermediate units, and charter schools must provide extended school year services if a student needs these services to receive a free appropriate public education (FAPE). In some cases, interruptions in the school schedule, such as summer break, will result in children with disabilities losing many of their basic skills and taking a long time to get those skills back once school begins again. ESY services are provided during breaks in the educational schedule to prevent this loss.
