2024-2025 Administrator Onboarding Training for PaTTAN Autism Initiative Supports

Request ID: 691

Entity Name: Chartiers Valley SD

Sites: Chartiers Valley HS, Chartiers Valley Intrmd School, Chartiers Valley MS, Chartiers Valley Primary Sch

Thank you for your application for systemic supports impacting classrooms, teachers and instructional practices supporting students with autism with your LEA for the 2024-2025 school term. Past your initial notice of collaboration, we are issuing this communication with subsequent tasks necessary in positioning your LEA/IU/facility to receive technical assistance with the start of the new school term.

Below are the next steps for your involvement with the PaTTAN Autism Initiative for the 2024-2025 school year.

- Complete the Administrator Training: You may access using the training link provided. After reviewing it is critical to complete the survey at the end to indicate your attendance. The training session must be completed by an administrative member of the faculty/or coaching designee supporting/supervising the classrooms applying for technical assistance 2024-2025. The training session must be reviewed by the close of business June 4, 2024.
  - **Required: Training Video**
  - **Required: Training Survey (linked in video description)**
- Share the Link: While only one individual from the LEA/IU/facility needs to complete the survey, it's encouraged to share the training link with team members involved with the PaTTAN Autism Initiative and collaborative onsite technical assistance. This includes teachers, internal coaches, building administration, and related services.
- Sign Up for Office Hours: After the training, you'll have the opportunity to sign up for office hours or reach out to your regional leadership team for additional information.
- Access the Training as a Resource: After June 4, the training will be available on the PaTTAN website as a resource to share in your district/IU.

Your dedication is appreciated, and we are excited to continue collaborating! Please reach out with any questions along the way.
